

BNPL for B2B

Merchant-Branded, Closed Loop Payment Option

Worldpay B2B Payments has partnered with TreviPay to bring merchants a B2B-specific BNPL solution designed to grow business sales. With this closed loop payment method branded with your logo, your business customers can seamlessly and securely buy from you on terms, while TreviPay assumes the credit risk.

5 Ways TreviPay Adds Superior Value

Turnkey

TreviPay's comprehensive solution incorporates financing, technology and services – offering you a turnkey solution to enable business buyers to pay on terms.

Merchant-Branded

From customer-facing technology to support services, TreviPay operates as an extension of your brand.

Scalable

TreviPay assumes the credit risk for your buyers' purchases and guarantees you payment. TreviPay improves your DSO and access to working capital, positioning you to scale.

Integrated

Worldpay B2B Payments' integration with TreviPay makes this a simple, secure plug-in payment option. All sales through TreviPay, including eCommerce sales, integrate seamlessly with your existing ERP workflows.

Configurable

Meet the complex needs of your business buyers, all while giving them a streamlined, B2C-like purchasing experience.

TreviPay, formerly known as MSTs, is a Global B2B Payments Company that has been trusted by clients to operate their B2B credit programs for more than 40 years.

Bringing Innovation to B2B Credit

TreviPay is changing the game of traditional in-house B2B credit programs with cutting-edge technology. Grow your B2B customer base and spend by combining the power of BNPL with a B2B-centric billing and payments experience.

The Payment Flow

Step 1

Buyer Qualification & Onboarding

Buyers complete an online application branded with your logo. TreviPay performs fraud and credit checks to assign buyers credit lines that can only be used to purchase from you.

Step 2

Omni-Channel Purchasing Experience

TreviPay supports purchases buyers initiate through your eCommerce site, marketplace, through your sales team, and in your retail stores.

Step 3

Authorization

TreviPay's sends you a real-time authorization response based on your customer's available credit and specific purchasing controls.

Step 4

Settlement

TreviPay pays you on a guaranteed schedule for all sales, less a transaction fee.

Step 5

Billing

TreviPay generates SKU-level billings for your buyers, branded with your logo.

Step 6

Buyer Payment

Buyers can use an online portal -- branded with your logo -- to initiate payment to TreviPay or pay by check, direct debit, or wire.
